

## CURRICULUM VITAE: ANTHONY R. LOWRY

Department of Geology, Utah State University

<http://aconcagua.geol.usu.edu/%7Earlowry/>

### Professional Preparation & Past Positions:

<u>Undergraduate Institution:</u>	<u>Major:</u>	<u>Degree &amp; Year:</u>
University of Wyoming	Geophysics	B.S. Hons., 1986
<u>Graduate Institutions:</u>	<u>Major:</u>	<u>Degree &amp; Year</u>
University of Wyoming	Geophysics	M.S., 1988
University of Utah	Geophysics	Ph.D., 1994
<u>Postdoctoral Institutions:</u>	<u>Department:</u>	<u>Inclusive Dates</u>
University of Utah	Geology/Geophysics	04/1994–11/1995
Victoria University of Wellington	Geology	12/1995–03/1997
Indiana University	Geological Sciences	04/1997–06/1999
<u>Positions Held:</u>	<u>Department</u>	<u>Inclusive Dates</u>
Visiting Scientist, UCAR, Boulder CO	GPS Sci. & Tech.	06/1999–06/2000
Research Associate, Univ of Colorado	Physics	06/2000–07/2006
Assistant Professor, Utah State Univ	Geology	08/2006–06/2012
Associate Professor, Utah State Univ	Geology	07/2012–present

<b>15 External Grants Funded:</b>	Program	Role	Institution	Amount
(G17AP00104) Toward Earthquake System Science: Western U.S. Lithospheric Stress/Strain Partitioning of Mantle Dynamics	USGS Earthquake Hazards	PI	Utah State U.	\$179,086
(1358622) Collaborative Research: The Effects of Water and Lithology on North American Lithosphere	NSF-EAR EarthScope	PI	Utah State U.	\$58,020
(1246977) Collaborative Research: Deciphering the Structure and Evolution of North America's Cratonic Core	NSF-EAR Geophysics EarthScope	PI	Utah State U.	\$46,500
(1114268) Collaborative Research: Deformation Processes in the Andaman Islands	NSF-EAR Geophysics	PI	Utah State U.	\$111,271
(0955909) CAREER: Earth Rheology and Deformation Processes	NSF-EAR Geophysics EarthScope	PI/ PD	Utah State U.	\$500,047
(0809954) Collaborative Research: Deformation Processes in the Andaman-Nicobar Islands	NSF-EAR Geophysics	PI	Utah State U.	\$60,000
(0537559) Collaborative Research: Deformation	NSF-EAR	CoPI	U.	\$99,974

Processes in the Central Andaman Islands (0454541) Collaborative Research: Crustal Deformation Measurements and a Multidisciplinary Geophysical Investigation of the Rio Grande Rift	Geophysics NSF-EAR EarthScope Science	CoPI	Colorado U. Colorado	\$481,069
(0207820) Collaborative Research: Seismic and Aseismic Slip Interactions on a Subduction Megathrust, Guerrero, Mexico	NSF-EAR Geophysics	PI/ PD	U. Colorado	\$45,686
(0125618) Hybrid Measurements of Crustal Deformation in Guerrero, Mexico	NSF-EAR Geophysics	CoPI	U. Colorado	\$298,769
(NAG5-11224) Investigating the formation of the Tharsis Rise and crustal dichotomy by modeling the MGS data and mantle dynamics	NASA Mars MGSDAP	CoPI	U. Colorado	\$150,459
Determination of vertical refractivity structure from ground-based GPS observations	Office of Naval Research	CoPI	UCAR	\$559,302
(#9072) GPS measurement of crustal deformation in the Wabash Valley seismic zone	USGS- NEHRP	CoPI	Indiana U.	\$39,954
(9727300) GPS measurement of tectonic and volcanic deformation in an active arc, Luzon, Philippines	NSF-EAR Geophysics	CoPI	Indiana U.	\$189,903
(NAG5-7619) Lithospheric rheology and geodynamic processes from integration of geodetic, gravity and topography data	NASA SENH	PI/ PD	Indiana U.	\$100,000

### 1 Patent Granted

- Belen'kii, M.S., E.J. Holder, S.F. Dugas, C. Rocken, and A.R. Lowry, Method of Compensating for Atmospheric Effects While Using Near Horizon Radar Utilizing a Doppler Signal, Patent No. US 6,853,331 B1, Feb. 8, 2005.

### 36 Invited Talks/Seminars/Keynotes:

- 12 June, 2018: "*Evidence for hydration and its role in dynamics of the western U.S. Cordillera*", 2018 Canadian Geophysical Union, Fallsview, Ontario, Canada.
- 16 May, 2017: "*EarthScope illumination of melts, volatiles, dynamics and structure of a continent*", EarthScope National Meeting 2017, 4:00pm, Dena'ina Convention Center, Anchorage, Alaska.
- 11 February, 2016: "*Thermo- & hydration dynamics of the lithosphere from combined seismic, potential field and petrophysical constraints*", **keynote address** to the British Geophysical Association—New Advances in Geophysics, Burlington House, Piccadilly Mayfair, London UK.
- 2 October, 2015: "*Pulling Utah's Earthquakes Up by Their Roots: It's the Water!*" Utah State University "Sunrise Sessions", Little America Conference Center, Salt Lake City, Utah.
- 4 December, 2014: "*Water, Lithology, Temperature and Stability of the Continental US Lithosphere*", Guy F. Atkinson Distinguished Lecture Series, Department of Geology & Geophysics, University of Utah, Salt Lake City, Utah.

- 22 October, 2013: “*What controls intraplate deformation in the western United States*”, for the Earth Science Seminar, Noon, Department of Earth Science, Utah Valley University, Orem, Utah.
- 3 September, 2013: “*EarthScope Illuminates Ductile Flow Properties of the US Continental Lithosphere*”, Earth Science and Engineering Seminar Series, King Abdullah University of Science and Technology, KAUST, 4:15pm, Thuwal, Saudi Arabia.
- 22 April, 2013: “*Imaging Ductile Flow: What EarthScope Seismic Data Tell Us About Flow Rheology of the Lithosphere*”, National Geophysical Research Institute AcSIR Talk series, New Conference Hall, Main Building, NGRI campus, 3:00 pm, Hyderabad, India.
- 19 April, 2013: “*GPS, Gravity and Seismic Expression of Postseismic Transient Deformation, Slow Fault Slip and Tectonic Tremor: Implications for the Seismic Cycle*”, National Geophysical Research Institute of India's Institute Talk series, S. B. Hall, NGRI campus, 3:00 pm, Hyderabad, India.
- 11 April, 2013: “*Challenges (And Promise) of In-Situ Lithospheric Rheology from Isostatic Strength Analyses (Invited)*”, European Geosciences Union General Assembly, rm G10, Austria Center, 8:30am, Vienna, Austria.
- 13 January, 2012: “*Why Mountains Are Where They Are: Quartz Marks the Spot*”, Department of Earth & Planetary Sciences Seminar Series, Locy 301, 3:30 pm, Northwestern University, Evanston IL.
- 20 September, 2011: “*Toward In-Situ Estimation of Lithospheric Rheology*”, Contributed Plenary Talk to the EarthScope Institute: The Lithosphere-Asthenosphere Boundary. 2:05 pm, World Trade Center, Portland OR.
- 9 September, 2011: “*Why Mountains Are Where They Are: Quartz Marks the Spot*”, for Southern Methodist University's Roy M. Huffington Department of Earth Sciences' Seminar Series, Heroy Bldg rm 153, noon, Dallas TX.
- 18 May, 2011: “*Crustal Quartz Plays a Surprising Role in Cordilleran Tectonism*”, Contributed Plenary Talk to the 2011 EarthScope National Meeting. 10:10 am, AT&T Conference Center, Austin TX.
- 12 April, 2010: “*Crustal Quartz: The Seeds of Mountains?*”, Department of Geology and Geophysics Distinguished Lecturer Series. 3:10 pm, University of Wyoming, Laramie WY.
- 25 September, 2009: “*Fire, Ice and Explosions: Volcanoes in Our Solar System*”, for the USU College of Science' *Science Unwrapped: Windows on the Cosmos* Series. 7pm, Emert Auditorium (Room 130), Eccles Science Learning Center, Logan UT.
- 6 November, 2008: “*EARS: Requirements for Crustal Studies Research*”, **Keynote address** to the Workshop to evaluate EARS and community needs for mantle discontinuity research using EarthScope data, University of South Carolina, Columbia SC.
- 30 May, 2008: “*Improved Receiver Function Estimates of Moho Using Spatial Statistics and Gravity (Invited)*”, Joint Assembly Meeting of the AGU, Ft. Lauderdale, FL.

- 7 March, 2008: “*Mass Loading and Rock Flow: New Insights from Isostatic Analysis*”, Department of Geological Sciences “*Smith Lecture Series*”, University of Michigan, Ann Arbor MI.
- 26 February, 2008: “*Slip Processes on Earthquake Faults: Some Recent Insights from Earth Deformation Measurements*”, Department of Physics Colloquium series, Utah State University, Logan UT.
- 3 October, 2007: “*A Tale of Two Subduction Zones: Geodesy, Fault Slip, and Implications for Frictional Rheology*”, Department of Geological Sciences Seminar, University of Oregon, Eugene OR.
- 13 March, 2007: “*The Role of Fault Friction in Geodetic Transients: A Tale of Two Subduction Zones*”, Department of Geology and Geophysics “*Seismo Seminar*”, University of Utah, Salt Lake City UT.
- 14 December, 2006: “*Gleaning Rheology from Lithospheric Flexural Strength (Invited)*”, AGU Fall Meeting, San Francisco CA.
- 14 September, 2006: “*Periodic Slow Fault Slip: A Resonant Response to Small Stress Forcing?*”, Geosciences Department Colloquium Series, Arizona University, Tucson AZ.
- 14 March, 2006: “*Resonant Slow Fault Slip in Response to Climatic Load Stress*”, **Keynote address** to the 2006 UNAVCO Science Workshop, Denver CO.
- 22 August, 2005: “*Observations, hazard implications, and a likely mechanism for slow fault slip events in subduction zones*”, School of Earth and Environment Seminar. 3pm, University of Leeds, Leeds, United Kingdom.
- 29 July, 2005: “*Observations, hazard implications and a likely mechanism for slow slip events in subduction zones*”, Earthquake Science Center Seminar Series. 10:30am, US Geological Survey, Menlo Park CA.
- 15 November, 2004: “*Lithospheric strength, stress and loading processes in the western U.S. Cordillera*”, Department of Geosciences Seminar Series. 4pm, Colorado State University, Fort Collins CO.
- 1 April, 2004: “*Silent slip and the earthquake cycle in subduction zones*”, Department of Geological Sciences Seminar. 3pm, University of Florida, Gainesville FL.
- 10 October, 2003: “*Silent slip and the earthquake cycle on major faults*”, Department of Earth and Planetary Sciences Seminar. 2pm, University of New Mexico, Albuquerque NM.
- 4 November, 2002: “*Silent slip and the earthquake cycle on major faults*”, 90<sup>th</sup> Journées Luxembourgeoises de Géodynamique. 3pm, Munsbach Castle, Munsbach, Luxembourg.
- 28 October, 2002: “*Geophysical evidence for processes of Cordilleran uplift*”, GSA Annual Meeting. 3:45pm, C108/110/112, Colorado Convention Center, Denver CO.
- 24 May, 2002: “*Fault slip dynamics of the subduction thrust in Guerrero, Mexico*”, Earth Science Department Seminar. 1:30pm, CICESE, Ensenada, Mexico.
- 18 July, 2001: “*A transient, aseismic slip event on a subduction megathrust, Guerrero, Mexico*”, LITHOSPHERE 2001 International Seminar Series, OGS Istituto Nazionale di Oceanografia e di Geofisica Sperimentale, Trieste, Italy.

- 26 April, 2001: “*Evidence for rate-state-dependence of friction on the Guerrero segment of the Cocos-North American plate boundary, Mexico*”, Department of Geological Sciences Seminar. University of Nevada, Reno NV.
  - 7 March, 2001: “*Transient fault slip in the Guerrero segment of the Cocos-North America plate boundary*”, Department of Geoscience Lecture Series. University of Nevada, Las Vegas NV.
- (I presented or co-authored ~30 other conference presentations in the last five years).

### **8 Courses Taught at USU**

- USU Honors 1360: Planet Earth. (*General introduction to Earth system science, for non-majors*).
- GEO 2500: Field Excursion. (*Field trip to observe expressions of deep-Earth dynamical processes in situ*).
- GEO 5600/6600: Signal Analysis. (*Grad/undergrad course in analysis of stochastic processes, including linear systems, spectral analysis, filtering, stacking, deconvolution and more*).
- GEO 5640/6640: Seismology. (*Grad/undergrad introduction to the wave equation and various topics in global seismology*).
- GEO 5660/6660: Applied Geophysics. (*Grad/undergrad introduction to exploration geophysics, surveying seismic, potential field and well-logging techniques suitable for shallow subsurface investigation, with a field data collection component*).
- GEO 5670/6670: Inverse Theory. (*Grad/undergrad course in optimal solution for model parameters and uncertainties from observational data*).
- GEO 5690/6690: Geodynamics. (*Grad/undergrad introduction to dynamical processes in the lithosphere and asthenosphere, emphasizing topics in thermal transfer, stress, strain, flow, rheology and geochemistry*).
- GEO 6590/7590: Geodesy and Crustal Deformation. (*Graduate course in measurement of the shape of the Earth and its gravity field, including various approaches to modeling these measurements*).

### **Students Advised:**

#### **Undergraduate theses:**

- Alan Gunnell, 2008: “*Monte Carlo simulation of uncertainty in estimates of the geotherm*”.
- Hans Anderson, 2009: “*Estimating the Earth’s geothermal gradient using Curie depths*”. Presented at USU’s 2009 Student Showcase.
- Tamara Jeppson, 2009: “*Is there slow slip on the Wasatch fault?*” Presented at the Utah Conference on Undergraduate Research (Salt Lake City) and USU’s 2009 Student Showcase.
- Jared Romero, 2010: “*Effects of water mass on GPS measurements of Rio Grande Rift motions*”. Presented at USU’s 2010 Student Showcase.

- Isaac Allred, 2014: “*Geotherms, the effective elastic thickness, and the role of quartz in Utah’s Basin and Range*”.
- Michael Berry, 2015: “*Thermal Evidence of Flatslab Subduction Perturbations in the Western US*”.
- Eric Lyman, 2016: “*Mineral Physics Modeling of the Effect of Water on Crustal Seismic Velocity Ratios*”.
- Matt Olsen, 2016: “*Smartphone Seismology: Data Acquisition Through Consumer-Available Devices*”.

**Graduate Theses (as chair):**

- Brent Scheppmann, MS expected 2018.
- Xiaofei Ma, PhD 2017: “*USArray Imaging of North American Continental Crust*”.
- Eric Beard, MS 2012: “*Using modern measurements of Pleistocene loads to model lithospheric rheology*”.

**Graduate Theses (as committee member):**

- Luis Navarro (USU-Physics), PhD expected 2018
- Rob McDermott, PhD expected 2018.
- Garth Hesseltine, MSc expected 2018.
- Brandt Scott, MSc expected 2018.
- Michael Negale (USU-Physics), PhD 2018: “*Investigating the Climatology of Mesospheric and Thermospheric Gravity Waves at High Northern Latitudes*”.
- Doug Jones, MS 2016: “*Crustal Architecture of the Snake River Plain, Idaho, Through Geochemical Investigation of Crustal Sill and Shallow Subvolcanic Xenoliths*”.
- Janelle Jenniges (USU-Physics), PhD 2015: “*A Study of the Dayside Ionospheric Electrodynamics During Extended Solar Minimum*”.
- James Kessler, PhD 2014: “*In-situ Stress and Geology from the MH-2 Borehole, Mountain Home, Idaho: Implications for Geothermal Exploration from Fractures, Rock Properties, and Geomechanics*”.
- Katie Potter, PhD 2014: “*The Kimama Core: A 6.4Ma Record of Volcanism, Sedimentation and Magma Petrogenesis on the Axial Volcanic High, Snake River Plain, ID*”.
- Mitch Prante, PhD 2013: “*Earthquake Petrology: Linking Fault-Related Deformation to the Earthquake Cycle*”.
- Steve Thornock, MS 2013: “*Southward Continuation of the San Jacinto Fault Zone Through and Beneath the Extra and Elmore Ranch Left-Lateral Fault Arrays, Southern California*”.
- Susit Chaiprakaikeow (USU-Civil Engineering), PhD 2012: “*New Methods for Engineering Site Characterization Using Reflection and Surface Wave Seismic Surveys*”.
- Kelly Bradbury, PhD 2012: “*Rock Properties and Structure Within the San Andreas Fault Observatory at Depth (SAFOD) Borehole, Northwest of Parkfield, California: In-*

*Situ Observations of Rock Deformation Processes and Fluid-Rock Interactions of the San Andreas Fault Zone at ~ 3 km Depth*".

- Marlon Jean, PhD 2012: "*The Chemical Evolution of Continental and Oceanic Lithosphere: Case Studies in the US Cordillera*".
- Megan Lahti (USU-Biology), PhD 2010: "*The status of dwarfed populations of short-horned lizards (*phrynosoma hernandesi*) and Great Plains toads (*anaxyrus cognatus*) in the San Luis valley, Colorado*".
- Meagan DeRaps, MS-AEG 2009: "*The Pliocene/Pleistocene volcanic evolution of the western Snake River Plain, Idaho*".
- Christine Puskas (University of Utah), PhD 2009: "*Contemporary deformation, kinematics, and dynamics of the Yellowstone hotspot and western U.S. interior from GPS, fault slip rates, and earthquake data*".
- Katrina Settles (University of Utah), MS 2007: "*Crustal Structure and Tectono-Magmatic Processes of the Yellowstone-Snake River Plain Volcanic System from Gravity Density and Lithospheric Strength Modeling with Seismic and Heat Flow Constraints*".

### **Postdoctoral/Research Associate Mentor:**

- Dr. Ravi Kanda, April 2014-present.

### **Professional Service Activities:**

#### **Department:**

- Organizer of the Geology Department Distinguished Lecture Series, September 2008–January 2010.
- Chair/member, Tenure Advisory Committees for Ben Burger, Dennis Newell & Alexis Ault

#### **College/University:**

- Member, Faculty Evaluation Committee, 2017-present.
- Member, Parking and Transportation Committee, 2015-present.
- Member, Faculty Senate, representing College of Science, July 2011–2017.
- Member, Post-Tenure Review Working Group, 2014-2015.
- Speaker for the College of Science' *Science Unwrapped* series (Sep 25, 2009: "Fire, Ice and Explosions: Volcanoes in Our Solar System")
- Member, College of Science Dean Search Committee, September 2006–January 2007.

#### **Community:**

- Chair, Geodetic Infrastructure Advisory Committee (part of UNAVCO governance), March 2015–present.

- Member, Plate Boundary Observatory Working Group; and Liaison, Geodetic Infrastructure Advisory Committee (parts of UNAVCO governance), January 2013–March 2015.
- Member and Secretary, Plate Boundary Observatory Advisory Committee, December 2009–December 2012.
- Contributing author on UNAVCO White Paper, “*The Scientific Value of High-Rate, Low-Latency GPS Data: A White Paper*”.
- Peer-reviewer, averaging nine manuscripts and five proposals per year. (Cited for Excellence in Refereeing by AGU editors, 2012).
- Funding panel member for NSF and NASA
